

Saiber Represents Bragg Gaming in Acquisition of Wild Streak Gaming

June 8, 2021

Bragg Gaming Group, a global B2B iGaming technology and content provider, has announced that it has signed a purchase agreement to acquire Wild Streak Gaming, a Las Vegas, Nevada-based content creation studio with a portfolio of 39 premium casino slot titles supported across online and land-based applications. The cash and stock transaction is valued at approximately \$30 million.

Together with the pending acquisition of Spin Games, the transaction will advance Bragg's acquisition strategy by increasing its ability to distribute and develop high-quality online casino content to the US market in-house, according to a press release issue by Bragg.

Saiber LLC served as M&A counsel to Bragg in connection with the transaction. In May 2021, Saiber represented Bragg in connection with its pending \$30 million acquisition of Spin Games, a Reno, Nevada-based B2B gaming technology and content provider.
