

Team Saiber Tackles Trash at South Mountain Reservation

October 16, 2023

Saiber recently embarked on a fulfilling community service day at South Mountain Reservation. As dedicated stewards of our environment, we took on the role of "Trash Tacklers" for an afternoon, working together to clean up and uplift the beautiful South Mountain Reservation.

Our collective efforts aimed not only to beautify the natural surroundings but also to contribute to the well-being of our community. By dedicating a few hours to picking up trash, we worked to support the South Mountain Conservancy's mission to preserve and enhance this vital green space in New Jersey. Kudos to the entire Saiber team for exemplifying the values of teamwork, environmental responsibility, and community engagement!

Here's to making a difference, one trash bag at a time!
